Planning and prospect

Introduction to Development ideas

Company central Concept

Dimu company adhering to the spirit of integrity-based, quality first, quality service and professional, careful, responsible concept, sincerely hope to cooperate with customers from all of the world with win-win situation.

Focus on upgrading products

By increasing investment in scientific research, improving production equipments, advanced testing equipments and strengthening quality control, the quality of products has been continuously improved and the content of science and technology has been increased continuously.

Strengthen product marketing

Use new media to strengthen product publicity, opened Qingdao branch to develop customers.

Development planning Introduction

Improve product quality control

Complete IATF16949 system certification within 2 years
Realize the whole process control of product quality

Increase investment to upgrade products

RMB 5 million will be invested and innovation in batches within 2 years to improve the technological content of products, in order to adapt to the needs of different customers.

Implement marketing planning

Make short and medium term marketing plan and strictly follow the implementation.

Training Sales team

At least every 3 months to organize sales team centralized training, increase team cohesion, improve marketing quality, improve marketing level

Why Choose GEM-DIMU Bearings Co., Ltd.?

- **Stable quality:** passed **IATF16949** ,P0/P6/P5 quality lever and our products have stable quality;
- **Competitive price:** help you **reduce costs** and achieve your business goals.
- **Excellent service:** have a **after markets service** department and engineers will handle after-sales issues directly.

We sincerely hope to cooperate you hand in hand!
Jointly explore and develop in the field of bearings,
and move forward with innovation!
