PART 03 Advantages

Advantages

1. Adopting professional hardening system and spraying quenching system complying with the stringent ISO System. Ensure the excellent mechanical properties, high strength and superior wear resistance to avoid bending and breakage.

2. Advanced Germany KUKA automatic machining center, Japanese MAZARK machining center, horizontal and vertical CNC machining ensure the accuracy of assembly dimensions.

Advantages

3. Additional medium frequency heat treatment makes the surface hardness of our products stronger and deeper among similar products, and the performance is enhanced.

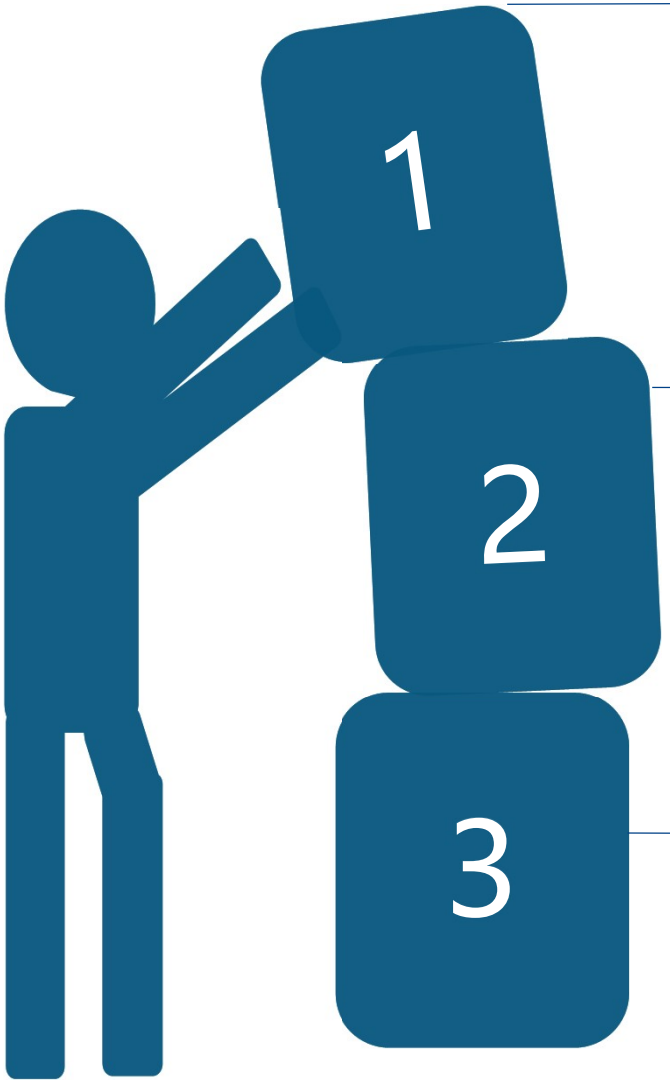
4. Strict detecting system and advanced inspection equipment.

5. Strict quality management from raw materials to packing.

6. We have complete production line and a professional designer and working team. We can produce any requested parts according to your blue print or sample.

PART 04 Services & Feedback

Services



Pre-Sale Service

* Professional sales team
* OEM part number guidance
* Maritime logistics guidance

Sales Service

* Customized solution designs
* Flexible payment terms including T/T, L/C and so on
* Fast delivery within 30 days after contract established
* Product rendering and structure drawing for free

After-Sale Service

* Industry-Leading Warranty With Lifelong Maintenance
* Video Technical Support, 24h Online Support
* Free Repair Service During The Quality Warranty
